

Award-winning eyecare

Visioncare was founded 25 years ago by brothers Bharat and Prakash Rughani and they have built an enviable reputation for service and care.

Senior partner Bharat Rughani is a leading contact lens consultant and is also a senior optometrist at Moorfields Eye Hospital. Prakash is also qualified to fit specialist medical lenses and they both have a private practice in Harley Street.

In 2006 Visioncare won an award from the local PCT for "outstanding clinical governance". It beat numerous rivals that included teams of hospital doctors, GPs, physiotherapists and pharmacists.

Then in 2007, Visioncare was runner-up in the prestigious **UK Contact Lens Practice** of the Year awards. March 2008 saw the group being awarded the **Coutts Prize** for Best Family Business, London and Greater London Region. In March 2010 it gained a **PCT award** for managing Glaucoma referrals. Visioncare is also featured on **BBC Online**, regarding children's eyecare.

These honours are a recognition of Visioncare's high standard of professional eyecare and attention to patient service.

The amount that the NHS contributes towards the cost of your eyecare has reduced enormously over the last 20 years. Most people do not qualify for any help with the cost of the eye examination or spectacles.

In response to many requests, we have introduced VisionPlan to provide you with a gold standard eye examination for greater reassurance. This includes an upgraded eye examination for greater reassurance that your eyes are healthy, and substantial discounts on all spectacles and accessories.

Payment Plan for Premium Eyecare

your eyes - our care

With VisionPlan you need never worry about the cost of your eyecare again.

Not only will your routine eye examination appointments be covered once you are registered with VisionPlan, but also extended professional consultations (usual fee of around £130) that allow us to spend up to an hour with you, so we can look at the medical health of your eyes in more detail.

You will be entitled to as many appointments as your optometrist recommends and you will also have access to emergency care if needed at no extra charge.

All of our new technology is included in your examinations with VisionPlan, including our retinal imaging system, visual field tests, and any follow up appointments that may be necessary.

VisionPlan is particularly suited to anyone who has a family history of eye conditions that need more detailed assessment (for instance: **Glaucoma, Cataract, Macular Degeneration, Retinal Disorders and Dry Eye Syndrome**).

Winner Coutts Best Family Business

Eyecare

VisionPlan allows you to have a gold standard eye examination, so we can look at the medical health of your eyes in more detail.

Eyewear

VisionPlan also allows you to have substantial discounts on frames and lenses.

20% discount on all spectacles, sunglasses and accessories

This applies at all times and not just when you have your routine eye examination.

PCT Award Winner

Adult (18 or over)	£9.50 - £17.50 pm*
Child (under 18)	£6.50 - £9.50 pm*
Family Memberships	from £17.00 pm*

*These fees will apply in the majority of cases, though there may be exceptions. For patients being monitored 6 monthly or more frequently, an extra fee of £5 - £10 per month will apply, depending on the complexity of tests carried out and the time needed.

For annual OCT screening, add £4 per month.

For those adults on income support or NHS Voucher, reduce fees by £2 per month.

OCT screening - detailed monitoring and early detection

Our state-of-the-art Ocular Coherence Tomography (OCT) scanner can reveal potentially harmful conditions at a much earlier stage than the eye examination or retinal photography:

- **Glaucoma-Related Conditions**
- **Diabetic Eye Disease**
- **Macular Degeneration**
- **Retinal Disorders**
- **Macular Holes**

and many other conditions

your eyes - our care
